

Jefferson Area Board of Aging All Client Records

The Jefferson Area Board of Aging submitted 1693 Individual Clients addresses Geocoded to provide a location within a half block of the true location. This map shows the 1662 (98%) of the clients that are totally within the Thomas Jefferson Planning District and several points nearby. These points have been randomly perturbed so that no point is within about 500 feet of the clients true location.

Unit of Analysis: Census Blocks
